## OBJECTIVE

Results-driven **Software Engineer** specializing in the **MERN stack** and **enterprise database** environments. Proven ability to architect secure **REST APIs**, manage complex **state logic in React**, and ensure absolute operational reliability. Seeking to leverage hands-on frontend development experience and rigorous data handling discipline to build scalable, high-impact systems.

## EDUCATION

**BS Software Engineering**, Virtual University of Pakistan  
Islamabad, Pakistan

**Aug 2023 – Present**

## EXPERIENCE

**Front End Developer (Private Contract)**  
*Remote / Islamabad*

**Jan 2025 – Jun 2025**

- Developed and deployed frontend interfaces for multiple client projects.
- Built responsive layouts and interactive UI components using **React** and **Tailwind CSS**.
- Collaborated with clients to translate requirements into functional web solutions.
- Delivered clean, maintainable code under tight deadlines.

**Junior Executive (Data Operations) NADRA** (*National Database & Registration Authority*)

**Jan 2026 – Present**

- Manage high-volume data entry and application processing within a secure, enterprise-level database system.
- Ensure data accuracy, rapid document validation, and strict compliance with official security protocols.
- Consistently clear daily operational targets (zero-pendency) to maintain smooth data flow and accurate record-keeping.
- Gained practical, hands-on exposure to large-scale data handling and daily system operations in a corporate environment.

## SKILLS

- **Backend & Databases:** Node.js, Express.js, MongoDB, PostgreSQL, SQL, RESTful API, JWT Authentication, Bcrypt.
- **Frontend:** React.js, Next.js, JavaScript (ES6+), Tailwind CSS, HTML5/CSS3, Axios / React Interceptors.
- **IT Infrastructure & Security:** Network Fundamentals, Cyber Security Basics, Secure Data Handling, System Architecture, IT Support.
- **Core Competencies:** Enterprise Data Operations, High-Volume Record Management, Technical Communication, Problem Solving, Team Leadership.

## PROJECTS

- **TaskFlow (Management App) | MERN Stack, React, Node.js** — Engineered a full-stack task system, managing complex frontend state and seamless API communication with the backend server.
- **SnippetVault (Code Manager) | Node.js, Express, MongoDB, JWT** — Architected backend infrastructure with secure user authentication and RESTful APIs for efficient database CRUD operations.
- **Hello Logic (Educational Tech Channel) | Technical Lead** — Produce and manage content teaching core programming fundamentals, demonstrating strong technical communication and logic breakdown.
